report of the executive committee

In 2018, Friends of the Earth continued to make significant progress in advancing our long term objectives. Our work to stop fossil fuels and hold companies accountable for their crimes and violations of peoples' rights continued as FoEI supported FoE Netherlands to launch a ground-breaking international legal challenge against Shell because of its role in causing climate change. The effort included coordinated diverse actions in support of the Stop Shell campaign, resulting in global media coverage (over 100 media hits in six languages). More than 30,000 people from 70 countries signed up to join the case as honorary co-claimants and our communication messages/materials reached over 1.3 million people on social media. As a result, FoEI strengthened its ability to push for national binding rules for business and for climate justice. We also strengthened our vision for energy solutions in 2018 with the launch of our 'People Power Now: Energy Manifesto'.

During 2018 we continued our work opposing secret and destructive trade deals. We strengthened the 'Stop RCEP' coalition and helped to delay approval of the Regional Comprehensive Economic Partnership (RCEP), including by convincing an increasing number of politicians to express their concern about secrecy in trade deals. We published a report, 'RCEP: A Secret Deal' together with TNI, PSI and IGG and Focus on

the Global South and developed associated communication materials, including a short video clearly articulating the main points from the report (viewed by 30,000 people), an opinion piece and five infographics. This was covered in major media outlets around the world.

Our work on promoting agroecology continued to advance, contributing to further strengthening the food sovereignty movement. As a result of our work with allies, there is increasing support from decision makers at different levels, as well as greater capacity in the movement to expose the false narratives of agribusiness and its attempts to capture agroecology. These efforts were supported with the publication of two issues of the FoEI's series 'Who Benefits?'. The first report, 'Fight hunger and cool the climate with agroecology', was targeted at the general public, to provide accessible information about this debate and increase the awareness about real solutions. The second report, 'Agroecology: innovating for sustainable food systems and agriculture', was a more detailed intervention specifically on the issue of innovation in family farming. This report has helped substantiate our arguments that agroecology is the real innovative model to be supported and that small-scale food producers, especially peasants and family farmers, are the main innovators in agriculture.

report of the executive committee *continued*

In the Convention on Biological Diversity COP 14 (held in Sharm El Sheik, in Egypt, 16-29 November), we provided analysis and strengthened alliances. We now have a key role in the the CBD Alliance, which allows our positions to be supported by more organisations and to have a greater degree of adoption by countries party to the CBD. We organized four actions, including on environmental defenders and on denouncing the role of corporations. We also set up a coordination team on the long term biodiversity policies.

Internally, we worked throughout 2018 to take forward substantial areas of work outlined in our current five year plan. In March, we evaluated our efforts to achieve our objectives and concluded that we are making good progress. In November, our federation came together at our biennial general meeting, where we agreed a new framework and plan for our communications work. We also agreed the framework for our work on protecting human rights defenders. And finally, we agreed a workplan for our federation-wide Gender Justice/Dismantling Patriarchy work. All three of these areas of work were identified as major priorities in our five year plan.

With 3,4 million Euros FoEI's turnover in 2018 was higher than ever before and also slightly higher than foreseen. Compared to 2017 the increase was 18 %. The explanation for this is that we succeeded in carrying out activities not yet implemented in 2017 and thus using up last year's rollover. Next to that we received additional funding from some of our donors, for example extra support from SSNC for human rights defenders work in Latin America and support from FoE Netherlands for a meeting on agro-commodities. Income from membership fees did not increase compared to 2017, but was nevertheless more than expected. Donations from the general public doubled.

On the expense side of the statement of revenues and expenditures the increase can mainly be seen in the costs of our Biennial General Meeting and support to member group projects. The 2018 result is a negative amount, which was a planned deficit. In its budget for 2018 FoEI had reserved substantial amounts from its reserves to be invested in an increased fundraising capacity, including a US-based fundraiser who started in July 2018.

Last year FoEI's staff in Amsterdam suffered from various capacity gaps due to sick leave and vacancies. This situation improved drastically in 2018. Staff members returned from their sick leave, some staff left, and new staff was recruited. In 2018 we added to our team two new fundraisers, two new support staff and a new program officer. The communications team was extended with a new staff member for Real World Radio and will in 2019 be completed with a 4th team member.

In 2019, our federation will focus its attention on developing a new fundraising strategic plan. In 2018 we agreed a process; in 2019 we will conduct the consultations and research needed to take this plan forward. In addition, we will begin the process of working to develop our next five year workplan. This is a time consuming but extremely valuable piece of work, which will position us well to continue making progress on our objectives.

Amsterdam, April 2019

accounting policies

general

The financial report has been made in accordance with the Guidelines for annual reporting C1 “Small not-for-profit organisations” of the Dutch Accounting Standards Board.

All assets and liabilities are stated at their face value, unless otherwise mentioned. Foreign currency amounts are valued against the exchange rate of the last day of each quarter, using XE Currency Converter or with the EU currency exchange converter when EU requirements are applicable. Exchange rate differences have been included in the result.

tangible fixed assets

Tangible fixed assets are valued at purchase price minus depreciation. Depreciation is based on the expected duration of life. The tangible assets are divided in inventory, network infrastructure and computers (hardware & software over Euro 500). Depreciation of computers and network infrastructure is 30% for the first 3 years and 10% for the fourth year. Depreciation of inventory is spread over five years, for second-hand furniture an estimate of its remaining life is made.

liquid assets

All cash and bank balances listed under liquid assets are discretionary. The funds in the ASN savings accounts generated an average interest of 0.08 % in 2018.

accounts receivable and accounts payable

If there is an account receivable and an account payable with the same Friends of the Earth member group, the outstanding amounts will be balanced. An overview of the balances of the largest debts and liabilities can be found in note to the balance 4b.

result

The result is the difference between core income on the one hand and core expenses at historical cost on the other hand, taking into account the above valuation principles.

There have not been any events after the 31st of December 2018 that have an impact on the numbers in these financial statements.

notes to the balance sheet

liabilities not shown on balance sheet

Friends of the Earth International entered into an agreement with Milieudefensie for the rent of their office space. The agreement runs from 1 November 2005 until 31 October 2020 and the initial annual rent was € 33,782. The amount is adjusted annually by the percentage indicated in the Consumers's price index as published by the Dutch Central Bureau of Statistics.

notes to the balance sheet *continued*

appropriation of result

In accordance with the budget for 2018, as approved by the Executive Committee in 2017, the negative result of Euro 102,296 will be withdrawn from the following allocated reserves: An amount of 11,000 Euros has been withdrawn from the HRD Emergency Fund, an amount of 39,216 Euros has been withdrawn from the Fundraising Investment fund and 10,000 Euros have been withdrawn from the fund for Membership Development. An amount of 7,000 Euros has been withdrawn from the Fund for Nepal. From the reserve for the International Secretariat an amount of € 34,117 has been withdrawn, to bring it to the level of 30,000 Euros as approved in the budget for 2019. The reserve allocated for the Membership Development will be re-supplemented with 10,000 Euros. The result of supplemented and withdrawn allocations, an amount of 10,963 Euros, will be withdrawn from the general reserves.

notes to the statement of revenues and expenditures

(amounts in euro)

1. membership fees

Membership fees are calculated at 1.15 % of member groups' unrestricted income plus 0,13 % of their restricted income of two years ago. The fees for 2018 were thus based on groups' income from 2017 and amounted to € 549,912, almost the same amount as 2017. It was however still € 30,000 higher than budgetted.

2. interest & miscellaneous

	2018	2017
interest	495	1,180
miscellaneous	3,281	-
total	3,775	1,180

Interest rates on our savings account are very low. Some accounts pay 0 %, some a tiny amount of 0,5 % or less. Some accounts charge negative interest when the balance exceeds a threshold level. We are avoiding generating balances that are too high on those accounts.

3. donor income (institutional funders)

	2018	2017
The donor income amount is based on the part of the grants that was spent in the respective year.		
milieudefensie / dgis: fair, green & global alliance	1,191,447	907,311

6. human rights defenders work

FoEI's Human Rights defenders work was mainly financed through a grant from the European Union specifically for FoE's Asia and Pacific (APac) region. The grant provides funding for a range of HR activities: solidarity support, trainings in the region, support for our HR Treaty work in Geneva and the development of a curriculum for HR trainings across the federation. Since the BGM in Nigeria in November 2018 FoEI refers to environmental Human Rights defenders as Defenders of the Territories. Below a specification of activities for all regions supported with funding from the EU and from DGIS-FGG.

hrd support	2018	2017

10. governance

In 2018 there were three Executive Committee meetings, two of them were held in Amsterdam and the third one was held before the BGM in Nigeria. The Amsterdam meetings took place in March and July. In March the meeting was combined with the meeting of the International Program Coordinators and the Membership Development Team. At the BGM FoEI's Chairperson, Karin Nansen from FoE Uruguay was re-elected. A new Executive Committee was elected, with members from FoE groups in El Salvador, Spain, Switzerland, Mozambique, Liberia, Nepal and Indonesia. The ExCom member from FoE Indonesia, Nur (Yaya) Hidayati, will serve as FoEI's new treasurer. Members of the Executive Committee are not paid for their work. The member group delegating the FoEI Chairperson has been compensated for the loss of time due to her activities for FoEI.

11. fundraising

The search for a US-based fundraiser has resulted in the appointment of a new colleague, based in the FoE US office on a cost-share basis between FoE US and FoEI. The fundraising team in Amsterdam has been strengthened with a second fundraising staff member as well. The expenses in the budget line here are for fundraising expenses. The salary costs of the fundraisers are listed under staff costs.

12. staff salaries

After a year with an exceptionally high level of sick leave in 2017, in 2018 all of the sick leave cases could be closed. FoEI also succeeded in recruiting for four vacancies and has currently two positions open. The role of media coordinator has been replaced by a coordinator from Real World Radio in Uruguay. Next to the International Program Coordinators who are based in member groups we now have two remote staff on our team.

INDEPENDENT AUDITOR'S REPORT

To: the Board of Vereniging Friends of the Earth International in Amsterdam, the Netherlands.

A. Report on the audit of the financial statements 2018 included in the annual report

Our opinion

We have audited the financial statements 2018 of Friends of the Earth International based in Amsterdam, the Netherlands.

In our opinion the accompanying financial statements give a true and fair view of the financial position of Friends of the Earth International as at 31 December 2018 and of its result for 2018 in accordance with the Guidelines for annual reporting C1 Small not-for-profit organisations of the Dutch Accounting Standards Board.

Dubois & Co. Registeraccountants is een maatschap van praktijkvennootschappen. Op alle opdrachten die aan ons kantoor worden verstrekt zijn onze algemene voorwaarden van toepassing. Deze voorwaarden, waarvan de tekst is opgenomen op de website www.dubois.nl, bevatten een aansprakelijkheidsbeperking.

The financial statements comprise:

1. the balance sheet as at 31 December 2018;
2. the statement of revenues and expenditures for 2018; and
3. the notes comprising a summary of the accounting policies and other explanatory information.

Basis for our opinion

We conducted our audit in accordance with Dutch law, including the Dutch Standards on Auditing. Our responsibilities under those standards are further described in the 'Our responsibilities for the audit of the financial statements' section of our report.

We are independent of Friends of the Earth International in accordance with the Verordening inzake de onafhankelijkheid van accountants bij assurance-opdrachten (ViO, Code of Ethics for Professional Accountants, a regulation with respect to independence) and other relevant independence regulations in the Netherlands. Furthermore, we have complied with the Verordening gedrags- en beroepsregels accountants (VGBA, Dutch Code of Ethics).

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

B. Report on the other information included in the annual report

In addition to the financial statements and our auditor's report thereon, the annual report contains other information that consists of the Board's report.

Based on the following procedures performed, we conclude that the other information is consistent with the financial statements and does not contain material misstatements.

We have read the other information. Based on our knowledge and understanding obtained through our audit of the financial statements or otherwise, we have considered whether the other information contains material misstatements.

By performing these procedures, we comply with the requirements of the Dutch Standard 720. The scope of the procedures performed is substantially less than the scope of those performed in our audit of the financial statements. Management is responsible for the preparation of the other information, including the Board's report, in accordance with the Guidelines for annual reporting C1 Small not-for-profit organisations of the Dutch Accounting Standards Board.

C. Description of responsibilities regarding the financial statements**Responsibilities of the Board for the financial statements**

The Board is responsible for the preparation and fair presentation of the financial statements, in accordance with the Guidelines for reporting C1 Small not-for-profit organisations of the Dutch Accounting Standards Board. Furthermore, the Board is responsible for such internal control as the Board determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

As part of the preparation of the financial statements, the Board is responsible for assessing the association's ability to continue as a going concern. Based on the financial reporting framework mentioned, the Board should prepare the financial statements using the going concern basis of accounting unless management either intends to dissolve the association or to cease operations, or has no realistic alternative but to do so.

The Board should disclose events and circumstances that may cast significant doubt on the association's ability to continue as a going concern in the financial statements.

Our responsibilities for the audit of the financial statements

Our objective is to plan and perform the audit assignment in a manner that allows us to obtain sufficient and appropriate audit evidence for our opinion.

Our audit has been performed with a high, but not absolute, level of assurance, which means we may not detect all material errors and fraud during our audit.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. The materiality affects the nature, timing and extent of our audit procedures and the evaluation of the effect of identified misstatements on our opinion.

We have exercised professional judgement and have maintained professional scepticism throughout the audit, in accordance with Dutch Standards on Auditing, ethical requirements and independence requirements.

Our audit included e.g.:

- identifying and assessing the risks of material misstatement of the financial statements, whether due to fraud or error, designing and performing audit procedures responsive to those risks, and obtaining audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtaining an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the association's internal control;
- evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Executive committee;
- concluding on the appropriateness of management's use of the going concern basis of accounting, and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the association's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause an association to cease to continue as a going concern;
- evaluating the overall presentation, structure and content of the financial statements, including the disclosures; and
- evaluating whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant findings in internal control that we identify during our audit.
